

Friends of Glenthorne Inc **Update** **November Working Bee Cancelled**

08

Due to the resignation of Farm Manager, Bill Ford, access to Glenthorne at present is difficult from a University of Adelaide view point. The appointment of a new caretaker will take some time.

We await the outcome—and the possibility of new protocols for future access.

UPDATE

2008 HAS BEEN A YEAR OF 'Glenthorne in the Media' with greater public awareness being achieved via Messenger Press, The Advertiser, Radio 891, ABC News. Responses from residents published in Letters to the Editor have explored a wide range of issues and have supported the original Memorandum of Agreement re 'no housing'. We await with interest the results of the University's Community Consultation to be completed by the end of November for presentation to the December University Board Meeting.

The Chairperson and Secretary have been in almost daily contact via emails, phone calls or meetings over coffee, responding to a diverse range of matters, thereby keeping the issues 'on the boil' with the University & Politicians.

The F.O.G. Christmas Celebration (see over) will provide an informal opportunity to reflect on our activities of 2008 and gather ideas for 2009. It will also be a time to thank our partners for their boundless tolerance and understanding.

Special thanks to ALL our supporters and volunteers for their efforts throughout the year. The 'Glenthorne Patch' truly demonstrates your commitment, dedication and hard work.

Looking forward to your company

Yours sincerely

Peter S. Chairperson
